

a moment of clarity

Introducing Amcor's family of modern stock options

OVERVIEW

Amcor's modern family of PET Wine and Ready to Drink containers offer the ability to reduce costs, put fewer trucks on the road and provides consumers a range of alternatives that yield a third of the greenhouse gas emissions of glass and aluminum.

187mL- 200 can end

200mL- 200 can end

250mL- 200 can end

355mL- 202 can end or resealable options available

500mL- 202 can end or resealable options available

FEATURES & BENEFITS

- The carbon footprint of PET containers is much lower than glass, with up to 77% fewer greenhouse gasses produced when making PET containers.*
- Amcor uses an oxygen barrier that has zero impact on taste and protects wine quality for up to 18 months..
- Shatterproof, dent resistant, safe, portable and welcome where glass is not.
- Available in clear and the full spectrum of the color pallet.
- PET allows for multiple deco options- pressure sensitive, silk screen or shrink sleeve.
- eCommerce Ready- ISTA6A Pass
